

WASTE MANAGEMENT AT FLISVOS MARINA

Dear Captain,

As part of its policy, Flisvos Marina acknowledges that the management of environmental issues forms an integral part of its operations, focusing primarily on environmental protection with a deep sense of awareness and responsibility. The company views this commitment as its social responsibility towards its customers, employees and shareholders, as well as the people visiting the Marina. In this context, Flisvos Marina collects and recycles in the proper and environmentally sound manner, the following types of waste:

A. Hazardous Waste:

The following types of waste **cannot** be placed in waste containers or recycling bins:

- Absorbent materials contaminated with oils and other chemicals
- Used filters contaminated with oils and other chemicals
- Containers contaminated with petroleum products, lube oils, dyes and other chemicals
- Other chemicals
- Electrical and electronic equipment
- Fluorescent lamps

Please contact the Flisvos Marina offices on +30 210 9871000-2 or +30 210 9871333 for further instructions or information.

- Waste Lube Oils: They are disposed of in clearly marked tanks, located in Piers A, E, G & D of the Marina. Please contact us for small quantities, so that a company employee may accompany you during the disposal, but also for large quantities that require pumping.
- Bilge water: They are disposed of in clearly marked tanks, located in Piers A, E, G & D of the Marina. Please contact us for small quantities, so that a company employee may accompany you during the disposal, but also for large quantities that require pumping.
- Batteries and accumulators: They are disposed of in clearly marked containers, located in Piers A & E of the Marina. Please contact us for large quantities.

- Batteries and accumulators (Household waste): They are disposed of in special containers/tubes, located in key areas throughout the facilities (within the Administration Building, in front of the lifts in Building 6, within the Marina Maintenance Building).

- B. Garbage (food and other):** Please ensure that all garbage is placed in double, heavy-duty bags, properly **closed**. The bags must be placed **inside** the waste containers, **ensuring that the lid is closed** after use.

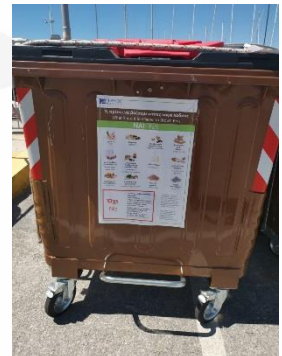

- C. Recyclable materials:** Please make sure that recyclable materials are placed in the correct containers (blue dustbins). For your convenience, please refer to the following list with the types of waste that may be placed in the blue dustbins:

- **Cardboard packaging and cardboard boxes** for electrical appliances, milk, cereal, pizza, sugar, detergents, toothpaste, etc.
- **Aluminium**, such as beverage cans, beer cans, etc.
- **Glass packaging** for water, juice, beverages, alcohol, etc.
- **Plastic packaging** for water, beverages, yoghurt, butter, oil, detergents, shampoo, plastic bags, etc.
- **Tinplate packaging** for condensed milk, coffee, tuna, tomato juice, pet food, etc.

- D. Organic materials:** Please make sure that organic material is placed in the brown bins. Indicatively:

- Fruits, Vegetables, including peels, stems and stalks
- Meat, fish, seafood (including the bones)
- Eggs and eggshells
- Pasta, rice, legumes
- Cereals, flour, breads, cakes, sweets
- Coffee residues & coffee filters, tea bags
- Milk products (cheese, yogurt, thick cream)
- Nuts and hulls
- Olive pits
- Branches, leaves, dirt, soils, grass
- Sawdust, chips, shavings
- Wood ash
- Kitchen paper, paper bags
- Paper towels, paper bags, newspapers (no colored or glossy paper, plastic or laminated materials)

E. Glass bottles: Especially for glass bottles, you may use the special containers located in wharfs A & B.

F. Sewage: Two sewage collection points are available within the Marina, in Pier A and near the fueling station at Pier G (for yachts up to 30m alongside Pier G). Please contact us if you wish to use the sewage collection points.

In addition, for the collection, transfer and management of sewage waste, it is also possible to contact our collaborator, Vytiofora Metaforas Lymaton Ltd., who has licensed vacuum tankers for the collection, transfer and disposal of sewage to the Metamorfoosi Sewage Treatment Plant (KELM).

The Marina waste disposal facilities are depicted in the attached diagram.

PRICING SYSTEM

The charges for collection of oil residues, hazardous and liquid waste, and sewage depend on the size of the vessel (specifically, the nominal area, i.e. length by width). Furthermore, an additional charge applies when the facility's small transfer vessel must perform one or more routes to transfer bulky solid wastes. The system is outlined in the following table:

Type of waste	Charge	Notes
-Oil residues in tanks -Non-hazardous solid waste -Hazardous solid waste -Sewage at the Marina collection points	€1.02 per vessel m ² * (included in the cost of other services category)	Billed monthly by the Marina on the vessel invoice
Sewage (group sewage collection organised by the Management Authority)	€50/m ³	Billed in a lump sum by the Marina on the vessel invoice
Waste Lube Oils (up to 20% humidity and free water) - pumped from vessel	-200€ for up to 2 tones -0€ for more than 2 tones	Billed directly to the vessel by the associated management authority
Bilge water– pumped from vessel	-Fixed price up to 15m ³ : €300 -Price for each additional m ³ (over 15m ³): €21 Price for each additional hour (over 2 hours): €63	Billed directly to the vessel by the associated management authority
Portable Batteries and Accumulators	Free	
Bulky solid waste	€30 per trip	Billed in a lump sum by the Marina on the vessel invoice

**irrespective of quantity*

The above charges do not include VAT and can be readjusted, based on the approved Flisvos Marina port and services price list.

NOTE:

These charges do not include the case when a vessel calls a tanker directly for sewage collection. In this case, the charge is the one agreed between the vessel and the company Vytiofora Metaforas Lymaton Ltd.

Thank you in advance for contributing to our efforts to keep the environment, the marina and the sea clean. For any further information, **please contact us on +30 210 9871000-2, +30 210 9871333.**

REPORTING PROCEDURE FOR ALLEGED INADEQUACY OF PORT RECEPTION FACILITIES

In line with the legislation in force, the management authorities must make sure they meet the needs of ships/vessels approaching their port facilities regarding waste collection, without causing any unjustified delays to the vessels.

The procedure for reporting any alleged inadequacies of the port reception facilities requires that users fill out a special form, which is then forwarded to the competent port authority, the General Secretariat of Ports and Port Policy of the Ministry of Shipping, and the management authority. The form is attached below.

REPORTING FORM FOR ALLEGED INADEQUACY OF PORT RECEPTION FACILITIES /

1. SHIP PARTICULARS

Name of ship: _____

Ship owner or operator:

Contact details of ship owner or operator:

Tel: _____

Fax: _____

Address: _____

Distinctive number or letters: _____

IMO No.: _____

Gross Tonnage (GT): _____

Port of registry: _____

2. PORT PARTICULARS

Country: _____

Name of port or area: _____

Name of company operating reception facility (if applicable):

Date of arrival: _____

Date of occurrence: _____

Date of departure: _____

3. TYPE AND AMOUNT OF WASTE FOR DISCHARGE TO FACILITY

3.1 Oil (MARPOL Annex I)

Type of oily waste / Quantity (m³)

Bilge water

LAMDA Flisvos Marina S.A.

- Sludge from DO purifier
- Dirty ballast water
- Tank washings
- Other (please specify)

Were facilities available?

- Yes
- No

Costs involved:

3.2 Noxious Liquid Substances (NLS) (MARPOL Annex II)

Type of NLS residue/water mixture for discharge to facility from tank washings /

- Category A substance
- Category B substance
- Category C substance
- Other (please specify)

Quantity /
Quantity (m3)

Substance is designated as

- Solidifying
- High viscosity

Proper shipping name of the NLS involved _____

Were facilities available?

- Yes
- No

Costs involved:

3.3 Sewage (MARPOL Annex IV)

Type of sewage / Quantity (m3)

- Sewage
- Gray water

Were facilities available?

- Yes
- No

Costs involved:

3.4 Garbage (MARPOL Annex V)

Type of garbage/

- Plastic
- Floating dunnage, lining or packing materials
- Ground paper products, rags, glass, metal, bottles, crockery, etc / Ground paper products, rags, glass, metal, bottles, crockery, etc.
- Paper products, rags, glass, metal, bottles, crockery, etc / Paper products, rags, glass, metal, bottles, crockery, etc.
- Food waste
- Incinerator ash
- Ash from plastic
- Other (please specify)

Quantity (m³)

Where facilities available? Were facilities available?

- Yes
- No

Costs involved:

3.5 Other wastes

4. WAS THERE ANY WASTE NOT ACCEPTED BY THE FACILITY?

5. INADEQUACY OF FACILITIES

5.1 Remarks on inadequacies

5.2 Location of facilities (close to the vessel, inconvenient location or vessel had to shift berth involving delay)

5.3 If you experienced a problem, with whom did you discuss this problem or report it to?

5.4 Did you give prior notification (in accordance with relevant port requirements) about the vessel's requirements for reception facilities?

- Yes
- No

5.5 Did you receive confirmation on the availability of reception facilities on arrival?

- Yes
- No

6. ANY ADDITIONAL REMARKS-COMMENTS:

7. MASTER'S SIGNATURE /
